A pixelated, black and white representation of the letter 'S'. The letter is composed of a thick, irregular black outline with a lighter gray interior, giving it a hand-drawn or stencil-like appearance. The strokes are slightly jagged due to the low resolution.A pixelated, black and white representation of the letter 'E'. The letter is composed of a thick, irregular black outline with a lighter gray interior, giving it a hand-drawn or stencil-like appearance. The strokes are slightly jagged due to the low resolution.A pixelated, black and white representation of the letter 'I'. The letter is composed of a thick, irregular black outline with a lighter gray interior, giving it a hand-drawn or stencil-like appearance. The strokes are slightly jagged due to the low resolution.A pixelated, black and white representation of the letter 'V'. The letter is composed of a thick, irregular black outline with a lighter gray interior, giving it a hand-drawn or stencil-like appearance. The strokes are slightly jagged due to the low resolution.A pixelated, black and white representation of the letter 'E'. The letter is composed of a thick, irregular black outline with a lighter gray interior, giving it a hand-drawn or stencil-like appearance. The strokes are slightly jagged due to the low resolution.A pixelated, black and white representation of the letter 'I'. The letter is composed of a thick, irregular black outline with a lighter gray interior, giving it a hand-drawn or stencil-like appearance. The strokes are slightly jagged due to the low resolution.
